An abundance of Holiday Activities

Sailing, martial arts, dancing, athletics and theatre. Aarhus Municipality plays host to a wide variety of excellent activities for children and teenagers. I am proud to present this year's Holiday Activity Magazine.

In the past year, many after school activities have been closed down due to COVID-19. The restrictions have proven what it means for us to be together. I hope you want to participate in some of the many Holiday Activities this summer – and that you will continue to support our clubs and associations when school starts again.

Without our many volunteers who pour their heart and soul into our clubs, we would not be able to offer this wide range of holiday activities for you to enjoy. Which is why we have decided to make their passion part of this year's magazine. Their efforts are so important to many children and teenagers. You get to meet Severin Bjerre, who started his career joining the Aarhus Tigers' holiday activities, and later went on to play for the Danish National Team. Today, he plays an active part in the club and coaches the women's team.

This is just one example of how the Holiday Activities can grow to be much more than a fun summer experience – and I hope the same is true for you.

I wish you a great summer packed with activities and fun.

From Holiday Activity to elite athlete

Severin Emil Bjerre is living proof that the Holiday Activities at Aarhus Tigers can lead to much more than a week of fun and new friends. The game got so deep under his skin that he joined the club and – after some years training – he qualified for the Danish National American Football Team.

In the summer of 2011, a cautious, little boy showed up for Holiday Activities at Aarhus Tigers. But before the first day of tackling, tossing and running was over, Severin Emil Bjerre felt right at home on the field in Viby.

American football was just the ticket. 'I signed up for one week of Holiday Activities at the Tigers, but I wound up doing the second week too. After that, I joined the club. American football was so exciting and different that it instantly swept me up,' Severin Emil Bjerre explains.

Since then, his trajectory just sky rocketed. He played on the Danish National Youth team and played elite American football for years. On the Danish National Team, he played the prestigi-

ous quarterback position. Today, Severin Emil Bjerre is 22 years old and works as a sergeant at the Danish Emergency Management Agency, and he coaches the Aarhus Tigers' senior team twice a week, not to mention that he is the head coach for the club's women's team.

'When I first started playing American football, I wasn't the fastest. I was a little overweight, which meant that I was never the best at playing football or swimming. But in American football, my weight wasn't an issue – actually, being on the large side was a plus. Because anyone can play on the team. Some have to run fast; others have to take hard tackles. Suddenly, the chubby boy in school was a star,' says Severin Emil Bjerre.

Which is why he encourages anyone eager to join the Aarhus Tigers' Holiday Activities to enrol.

'Age, size, gender and weight doesn't matter, there's room for everyone. You become part of a great community, which is what is so cool,'

Severin Emil Bjerre says and adds; 'If some parents or children are nervous that American football is too brutal, don't be. Obviously, it is different from regular football, where you chase the ball. Here, you chase the man. But it's a community that embraces little and big players alike, and we look out for each other and play for fun,' Severin Emil Bjerre explains.

Passion-driven

They work their fingers to the bone to come up with amazing activities for children and teenagers in Aarhus. Meet some of the people who pour all their passion into the Holiday Activities you can choose from in this magazine. .

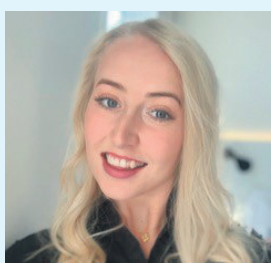

'Wakeboarding has always been a part of my life. I got started on water sports at the age of 5, and I simply love helping other kids fall in love with the water, to get the same experiences I did when I was a kid. The best thing about the Holiday Activities is to meet all of the kids and teens and see them push their boundaries and leave the club with big smiles on their faces, checking in an hour early the next day, just because they can't wait to be in the water again.'

Kenneth Enggaard Kristensen, Managing Director, Aarhus Watersports Complex

'My favourite Holiday Activity experience was in 2011, when a bunch of happy children visited. Including a little, tentative boy, who tried out American football for the very first time. He got hooked quickly and, five years later, when I saw that kid score his first touchdown for the Danish National under-17 American Football Team, honesty, I welled up a little. I was proud of what we, as a club in association with Aarhus Municipality, were able to achieve.'

Peter Friis, chairman, Aarhus Tige

'To me, the Holiday Activities is an amazing opportunity to show a lot of kids and teens just how great cheerleading really is. You see, when I was 12 years old, I got to know cheerleading in my own summer holiday. That's why I hope to inspire others with a week to spare to choose an active summer holiday. I still remember the feeling like it was yesterday!'

Josephine Elene Hansen, Aarhus Star Cheerleaders Aarhus

'I volunteer at a club because it brings joy to my day and it helps me gain experiences and hone my own skills. The best thing is to help create a sense of community for the kids and teens.'

Tommy Phan, coach etc., The Colosseum

'The people, I plan Gellerup Summer School with, are simply brilliant, and seeing the kids hang out and have fun during that week – that we have spent a year planning – makes it all worthwhile. It is the best thing ever, when you get a sense of how committed and proud the children are of what they do. As a volunteer, I also get practical skills that I can use in my own life.'

Freja Møller Wickert, project manager, Gellerup Summer School

'I grew up with club activities and have been the volunteer leader of the club since I was a teenager. I just got caught up in the feeling of making a difference. One of the greatest experiences I've ever had is the tremendous joy and interest we had last summer, when we re-opened after the first COVID-wave.'

Henrik Larsen, board member etc., Århus Sportsdanserforening (dancesport)

'The coolest thing about being part of the Holiday Activity "Sailing and beach activities" is that I get to share my joy of being a sea scout, of sailing and demonstrating the amazing sense of community we have.'

Rebecca Rosenberg, Stifinderne Sø, Søspejdergruppe (sea scouts)

'The best thing about the Holiday Activities is the immediate joy of getting the kids away from the screen, having them bond and teaching them important stuff like good behaviour, body focus, patience, some physical activity and instilling a sense of community.'

Kim Andersen, coach, Aarhus Karate School
