

CONFERENCE HOTEL - BASIN 7

Ø-LINJEN

AARHUS Ø

Aarhus Ø is rapidly changing from an old industrial area to a modern, vibrant neighborhood with lots of residential and commercial buildings. In the future Aarhus Ø will be an area for everyone to visit, filled with life 24/7 all year round. Homes, shopping facilities and urban activities will exist side by side close to

the water and will create a part of the city, that will be buzzing with life.

When it is completed, around 10.000 people will be working in the area and 12.000 people will be living in Aarhus Ø. This makes Aarhus Ø one of the world's largest development areas by the waterfront.
